Assistant marketing lead

**Eventsea**

Aug 2017-1 mon

Mysore

Sponsorship Lead

**NIE IEEE Student Branch**

Aug 2017-18

Mysore

## PROJECTS

**My Blog site**

Ongoing

Created a website with gastby which uses reactjs and for serverless hosting uses netlify content management system. I write mainly technical blogs.

**Image Classification**

My model features 12 cat breeds and 25 dogs breeds. Model will need to learn to differentiate between these 37 distinct categories and got accuracy of 94percent which is just 6percent error when compared to state of art model in 2012 paper which had 56percent accuracy

**Frontend for Jobportal website**

During internship in workociti, designed frontend of website for searching and recruiting jobs using HTML, CSS, Javascript.

**Student Information Database Management system**

In this database information of student like grade, CGPA, number of subjects registered are mentioned.

**Social Networking Application**

Built application on NodeJs API and frontend with React. Trying to implement all functionality of social network app.
